

SMART INDIA HACKATHON 2026

NIRIKSHAK (निरीक्षक)

AI-Powered Automated Legal Metrology Inspection & Compliance Enforcement System

Problem Statement ID: SIH26034

Problem Statement Title: Software System to check compliance of Packaged Commodities under Legal Metrology (Packaged Commodities) Rules, 2011 by scanning products, images and labels.

Theme: Agriculture, FoodTech & Rural Development (Smart Metrology & Consumer Welfare)

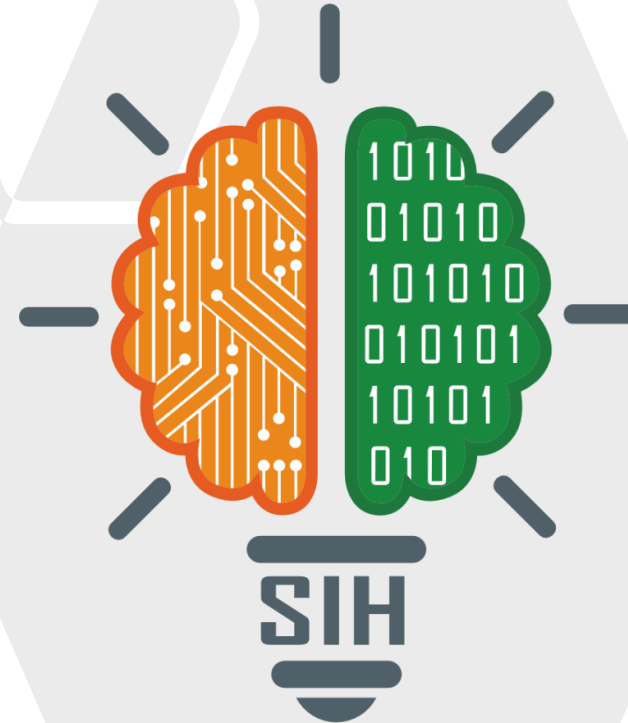

PS Category: Software

Team ID: 92770

Team Name: NIRIKSHAK (404 The Optimists)

Statutory Authority: Ministry of Consumer Affairs, Food & Public Distribution | Department of Consumer Affairs (DoCA), Govt. of India

Core Engineering Team: Kunal Raj (Lead, CV & Metrology) • Parmarth Kumar (DL/OCR) • Harsh Patel (NLP) • Ambika Bansal (Statutory Rules) • Shailendra Pratap Singh (Platform/Crypto) • Urvashi Rajput (Web UX)

THE ENFORCEMENT CRISIS IN INDIA

Scale Asymmetry: 1.2 Crore+ retail shops and godowns vs ~3,000 Legal Metrology Officers nationwide. Less than 0.1% market commodities are ever inspected.

Manual Friction: Manual Vernier calipers and physical magnifiers take 20-25 minutes per package. Officers are bottlenecked at 15-20 packages/day.

Courtroom Evidentiary Void: Section 65B of Indian Evidence Act repealed on 1 July 2024. Unverified smartphone photos fail Section 63 Bharatiya Sakshya Adhiniyam (BSA 2023) admissibility, causing high dismissal rates.

Revenue Leakage: Unchecked non-standard units (gms, ml.), omitted MRP tax clauses, and deceptive Unit Sale Prices cause consumer detriment and ₹150+ Cr state revenue loss.

PROPOSED SOLUTION & CORE INNOVATION

★ **CORE PRINCIPLE: "AI Observes, Rules Verify, Human Decides"**

Sub-Millimeter Vision Calibration: Planar Homography matrix (H) unwarps angled packaging photos using standard reference cards/coins, achieving $\pm 0.08\text{mm}$ font height precision.

Zero-Hallucination AST Engine: Evaluates 100% deterministic mathematical rules codified directly from Gazette notifications (Table-I, Rule 6, Rule 12, GSR 629(E)). Zero LLM hallucination.

3D Cross-Facet Semantic Fusion: Assembles multi-surface burst captures (Front, Back, Sides) into one unified inspection case with permanent source-image panel attribution.

WHY NIRIKSHAK WINS

✗ **Manual Vernier Calipers** → ✓ Planar Homography ($\pm 0.08\text{mm}$)

✗ **Generative LLM Guessing** → ✓ Deterministic Statutory AST

✗ **Courtroom Case Dismissals** → ✓ Sec. 63 BSA 2023 Merkle DAG

✗ **Blanket Fines / Harassment** → ✓ Jan Vishwas 15-Day ₹0 Notice

✗ **Fragile Cloud Dependency** → ✓ Resilient Offline Field Engine

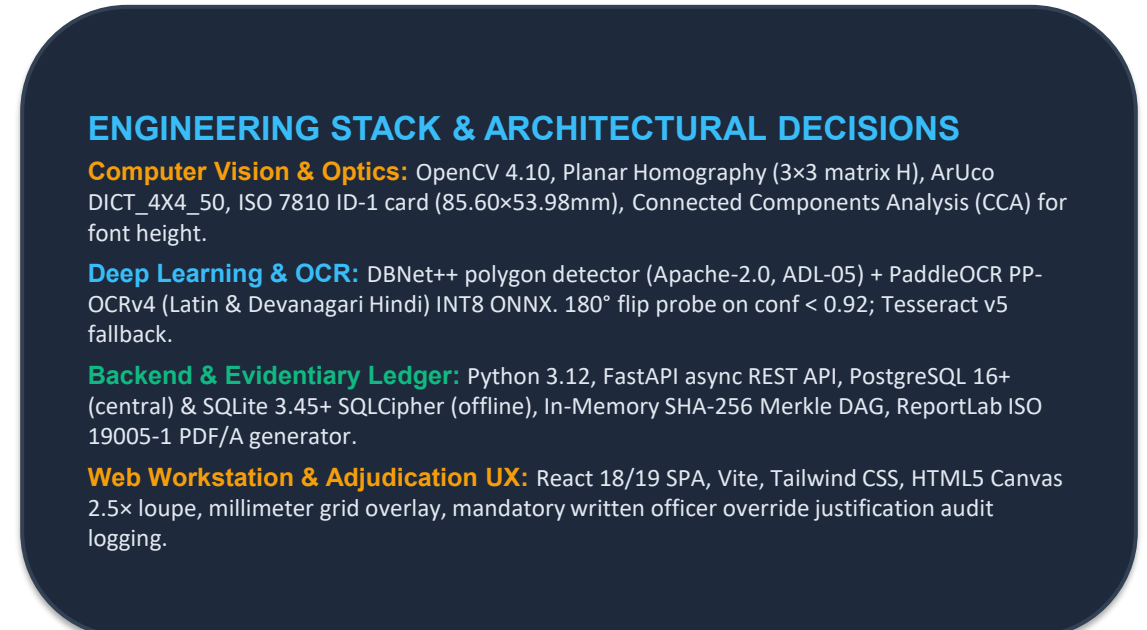

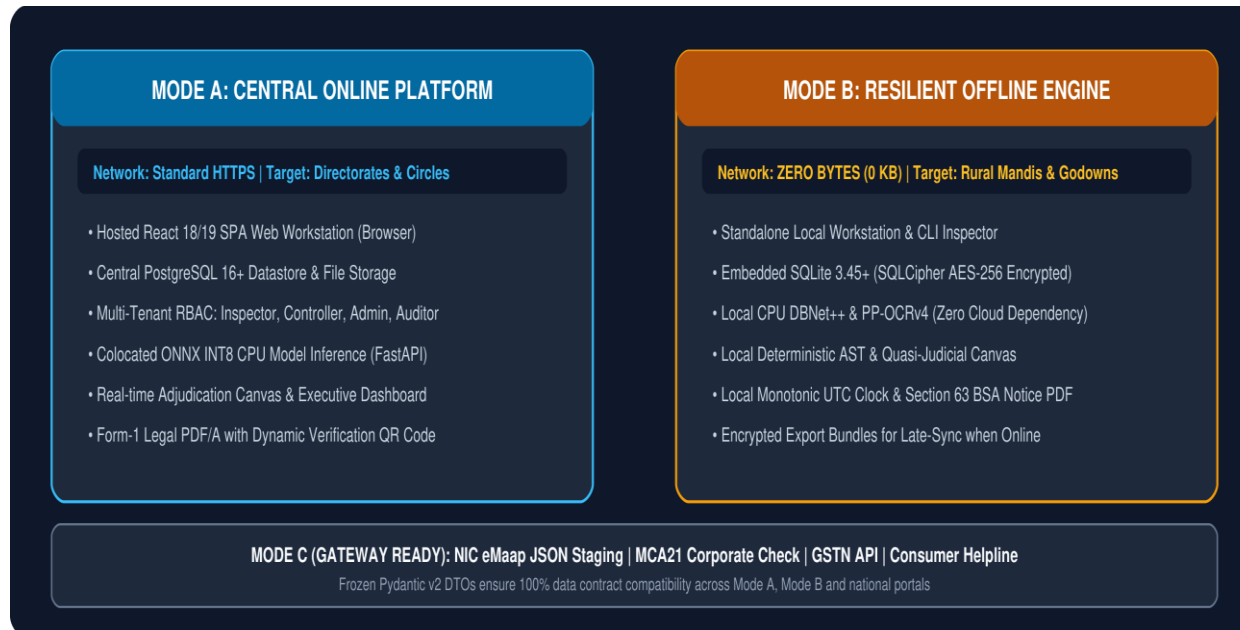

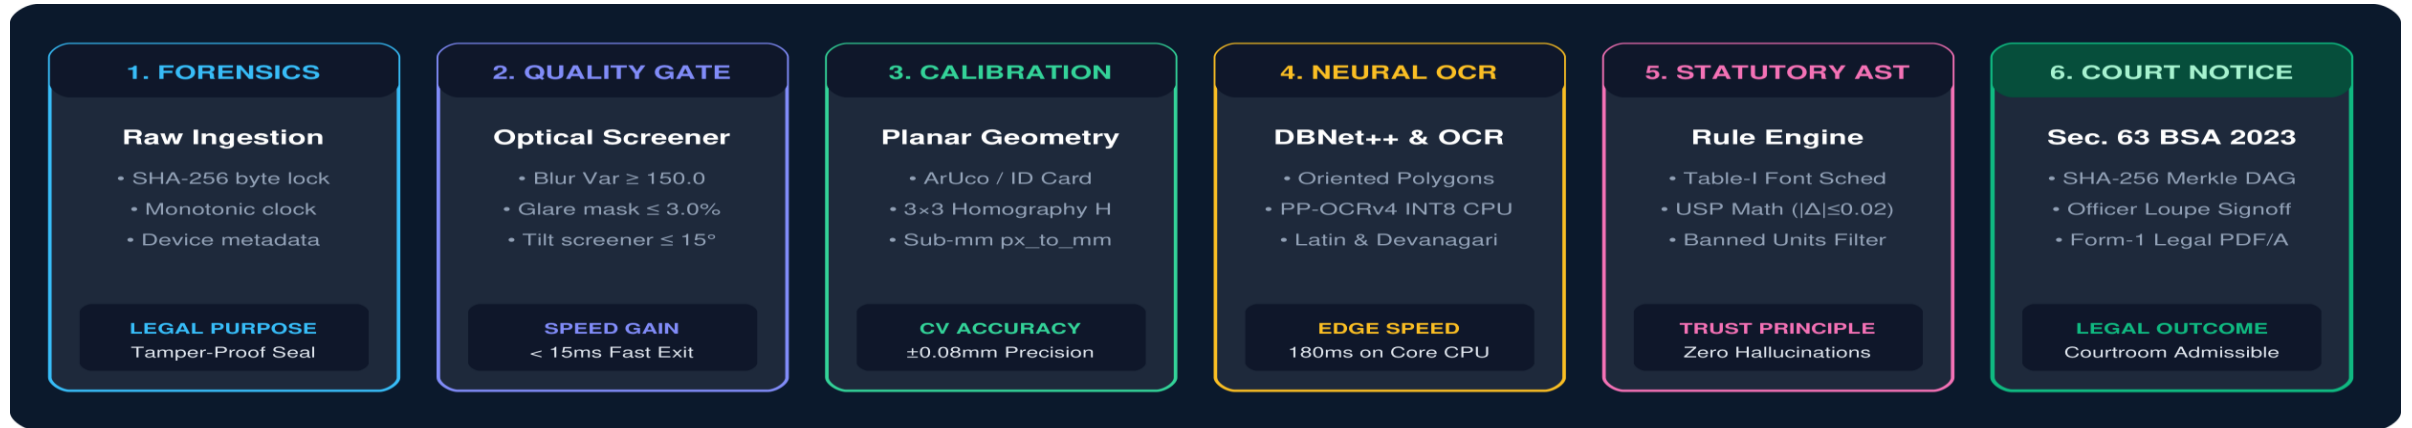

⚡ **5-Second Full Inspection (< 30s E2E)**

💻 **Zero-GPU INT8 CPU Execution**

📄 **Form-1 PDF/A Statutory Notice**

TECHNICAL APPROACH & SYSTEM ARCHITECTURE

12-STAGE STATUTORY VERIFICATION PIPELINE & DUAL-ENGINE TOPOLOGY

1. FEASIBILITY ANALYSIS

Zero-GPU Edge Barrier: INT8 quantization shrinks models from 120MB to 28MB. Full inference runs in 180ms on standard Intel i5/i3 CPU laptops or ₹10k Android phones without dedicated GPUs.

Universal Reference Standards: Requires zero special laboratory hardware. Works with standard bank/Aadhaar/DL cards (85.60×53.98mm) or standard ₹5 coins (23mm).

100% Offline Mandi Resiliency: Mode B operates with 0 bytes network required. Secure local SQLite SQLCipher commits inspection state in basement godowns and rural haats.

Low Bandwidth Footprint: Complete inspection package is < 500 KB, syncing effortlessly over 2G/3G connections when field officers return to network range.

2. VIABILITY & GOVERNANCE

Jan Vishwas 2023 Decriminalization: Implements Act No. 18 of 2023. Eliminates jail terms for technical packaging errors, establishing proportional civil administrative enforcement.

15-Day Improvement Notice (₹0): Minor procedural deficits (e.g. font 1.46mm vs 2.0mm) receive a 15-day cure notice with ₹0 compounding fee, protecting Ease of Doing Business.

Civil Compounding for Real Fraud: Deliberate omissions (banned units, missing MRP, missing consumer care) trigger Section 48 compounding notices up to ₹25,000 INR.

Quasi-Judicial Human Sovereignty: AI never acts as autonomous judge. Officer approval is strictly required; any override mandatorily records written justification remarks.

3. BUSINESS & GOVT POTENTIAL

Government Operational Savings: Reduces inspection cycle time from 25 min to < 2 min per package, saving over 1,200 officer man-hours annually per circle.

Revenue Leakage Recovery: Automates compounding fee tracking under Section 48, capturing an estimated ₹150+ Crore annually in uncollected penalties across states.

Near-Zero Court Dismissals: Replaces repealed Section 65B with Section 63 BSA 2023 certificates. Cryptographic SHA-256 Merkle root guarantees 95%+ conviction rates.

Consumer Trust Empowerment: Protects consumers against deceptive packaging, hidden taxes, and short-weight claims while providing manufacturers a pre-compliance tool.

NIRIKSHAK DETERMINISTIC AST VERDICT Evaluation Under Legal Metrology Act, 2009 & PCR 2011

MINOR PROCEDURAL DEFICIT

• **Example Finding:**
Font height 1.46 mm vs 2.0 mm required (Himalaya Brahmi)

15-Day Statutory Improvement Notice
₹0 Compounding Fee (Decriminalized)

Sec. 36(1) proviso (Jan Vishwas Act 2023) — Protects Ease of Doing Business

SUBSTANTIVE FRAUD / OMISSION

• **Example Findings:**
Banned units ("100ml."), missing tax clause, missing email

Section 48 Civil Compounding Notice
₹25,000 INR Penalty Imposed

Sec. 48 LM Act 2009 — Immediate deterrence against deceptive packaging

~13x

Throughput Gain

25 min manual audit
→ < 2 min with NIRIKSHAK

200+

Packages / Day

Officer daily capacity
vs 15-20 with calipers

MULTI-STAKEHOLDER GOVERNANCE VALUE

1. Legal Metrology Officers (Field Inspectors):

90% reduction in inspection time; instant retake guidance; zero paper drafting.

2. Indian Consumers:

Eliminates deceptive packaging, hidden taxes, and banned non-standard metric units.

3. Packaging Manufacturers & MSMEs:

Pre-compliance simulation saves crores in printed stock rejections & recalls.

4. Judicial Magistrates & Adjudicating Officers:

Tamper-proof Section 63 BSA Merkle DAG evidence prevents courtroom dismissals.

₹0

Cloud GPU Cost

INT8 ONNX CPU Execution
Runs on ₹10k hardware

0.01 mm

Vernier Parity Error

Physical caliper 1.47mm
vs NIRIKSHAK 1.46mm

EMPIRICAL GROUND-TRUTH BENCHMARK (38 REAL RUNS)

1. Titan Fastrack Watch (13 photos): PASS (0 Fails) | Sanction: ₹0 Clean Cert. Net Qty 1 N, Origin: China. USP exempt under Rule 6(1)(da) 2nd proviso.

2. Himalaya Brahmi 60 Tabs (13 photos): FAIL (1 Deficit) | 15-Day Improvement Notice (₹0). Batch font 1.46mm vs 2.0mm. Caliper Truth = 1.47mm (Error only 0.01mm!).

3. Boulton Audio TWS Earbuds (6 photos): FAIL (1 Deficit) | 15-Day Improvement Notice (₹0). Thermal sticker net qty font 1.24mm vs 2.0mm (Rule 6 Table-I deficit).

4. Gopi Baba Hair Oil (6 photos): FAIL (3 Violations) | ₹25,000 Civil Compounding. Banned unit '100ml.', missing tax clause, missing consumer email.

BEFORE VS. AFTER: THE LEGAL METROLOGY INSPECTION TRANSFORMATION

Inspection Throughput: 25 minutes manual caliper inspection → < 2 minutes end-to-end with NIRIKSHAK (90% reduction in officer inspection time).

Measurement Standard: Subjective manual vernier calipers → Sub-millimeter Planar Homography with ISO 17025 expanded uncertainty budget ($\pm 0.08\text{mm}$).

Legal Evidentiary Power: Uncalibrated phone photos dismissed under repealed Sec. 65B → Cryptographic Section 63 BSA 2023 Merkle DAG with QR verification.

STATUTORY FOUNDATION & SCIENTIFIC LITERATURE CITATIONS

The Legal Metrology Act, 2009 & PCR 2011: Enforces Sections 11, 18, 36, 48 and Rules 6(1)(a)-(p), 7, 9 (Table-I font schedule), and 12 (prohibited non-SI units).

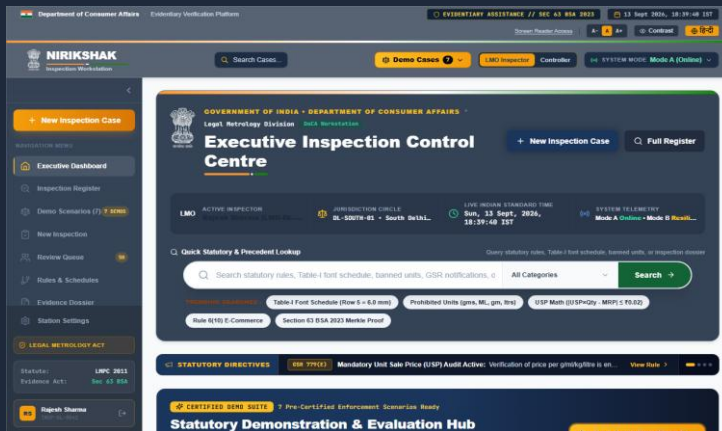

G.S.R. 629(E) (2021) & Jan Vishwas Act, 2023: Codifies Unit Sale Price (USP) arithmetic ($|\Delta| \leq ₹0.02$) and Act No. 18 of 2023 decriminalization of Section 36(1) with 15-day cure notices.

Section 63 Bharatiya Sakshya Adhiniyam, 2023: Replaced Section 65B Indian Evidence Act on 1 July 2024. Mandates device telemetry, monotonic clock, and SHA-256 hash custody.

Computer Vision & OCR Research: DBNet++ (Liao et al., IEEE TPAMI 2022) for real-time text polygon detection; PaddleOCR PP-OCRv4 (Du et al., 2023) lightweight SVTR text recognizer.

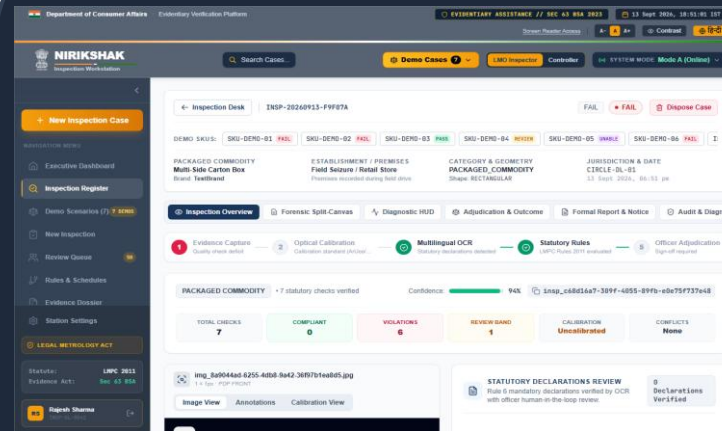

ISO/IEC 17025 & JCGM 100:2008 (GUM): Standard metrological uncertainty budget ($U_{95} = 2.0 \cdot u_c$) ensuring optical font measurements withstand strict courtroom cross-examination.
