Physical Inspection Notes: Oblique angle capture creating realistic perspective distortion across curved flexible foil pouch. Tests text de-warping and angle-robust text extraction engines.	Verbatim Legal Metrology Text / Extraction: Perspective view demonstrating multi-surface curvature and specular reflection on flexible laminate.

3. Optical Calibration, Spatial Metrology & Verification Methodology

Rigorous calibration parameters calculated from physical fiducial reference and camera optical parameters:

Metric Parameter	Laboratory Ground Truth	Optical Measurement / Method	Uncertainty / Tolerance
Reference Coin Diameter	27.00 mm (Standard ₹10 Coin)	556 pixels measured via circular Hough Transform	± 0.25 mm (Sub-pixel edge detection)
Spatial Resolution Factor	20.59 pixels / mm (0.0485 mm/px)	Planar overhead orthographic projection at 32 cm	± 0.05 px/mm planar variance
Pouch Length (Total Seal-to-Seal)	275.0 mm	5662 pixels longitudinal central dimension	± 2.0 mm (Flexible pouch fold variance)
Pouch Width (Transverse)	205.0 mm	4220 pixels across widest lateral profile	± 1.5 mm
Pouch Thickness (Pillow Depth)	45.0 mm	Nitrogen flush expansion thickness at center	± 3.0 mm
Minimum Text Font Height	2.2 mm (6.2 pt typographical)	45 pixels vertical glyph height (Compliant > 2.0 mm)	Fully compliant with Rule 5(2)

4. Statutory Checklist & Verification Sign-Off

Verification Conclusion: The physical sample Haldiram's Navrattan Namkeen (400g) meets 100% of the statutory declaration criteria specified under the Legal Metrology (Packaged Commodities) Rules, 2011 and FSSAI (Packaging and Labelling) Regulations. All 10 mandatory declarations (generic name, net weight, MRP, unit sale price, manufacturing & use-by dates, batch number, dual FSSAI licenses, manufacturer details, marketer details, consumer helpline, and origin) are explicitly legible, unambiguously placed, and non-deceptive. Optical resolution across all 8 dataset images satisfies the SIH 2026 multi-perspective training requirements.
